NeuroPath

Partial-Interval Recording

Score + if behavior occurs at ANY time in the interval

Learner (initials/ID): Date: Observer: Setting:

Behavior: _____ · Interval length: _____ sec · Session length: _____ min

Row	1	2	3	4	5	6	7	8	9	10	% intervals
1–10											
11–20											
21–30											
31–40											
41–50											
51–60											
61–70											
71–80											
81–90											
91–100											
101–110											
111–120											

% of intervals = intervals scored + ÷ total intervals × 100 = _____

Tends to overestimate occurrence. Use a vibrating timer or audio cue to mark intervals.
